

# EHFCN: AN OVERVIEW

## WHO WE ARE

The European Healthcare Fraud & Corruption Network (EHFCN) is the only organization dedicated to combating fraud, corruption and waste in the healthcare sector across Europe. EHFCN was formally established in 2005. It is a not-for-profit organisation financed through subscription fees.

Its members are healthcare and counter fraud organisations in Europe. In 2022, the network represents 21 members from 15 countries - governmental organisations, NGO's and private insurers.

## WHAT WE DO

EHFCN's activities aim to support members and associates entities in their work of prevention, detection, investigation, prosecution and redress of healthcare fraud, corruption and waste.

EHFCN:

- provides its members with a platform to exchange information and tools, best practices and ideas;
- promotes the development of common working standards through education and events (webinars, workshops, 'Open houses');
- represents its member organisations towards national, European and international organisations involved in healthcare and/or in countering fraud and corruption.

## WHAT IS OUR VISION

Our vision is to create a real fraud-proof and corruption-proof culture within healthcare systems across Europe. Our network will empower our people to use their knowledge and skills to the full.
